

The Mystery of the Crayons

It was a Friday afternoon, when a girl went to a stationery shop to buy some crayons.

- 'Can I have a box of crayons and a pencil case, please?' -Asked the girl.

She paid for them and happily went back home.

Once she got home, she started organizing her school supplies because she would have her first day of school the following day. When she tried to place the crayons in her pencil case, these started to move!

- 'What is happening?' -shouted the girl. She was very scared, and she ran away.

The markers feared the pencil case, so they quickly hid inside the cupboard. Then, the bravest of them said:

- 'I don't know why we are so scared'. -and he went inside the pencil case.

The other crayons started to shout and scream because they thought the run-away crayon was dead since the pencil case had zipped shut and they couldn't see him. The crayon shouted from inside the pencil case:

- 'I am okay! I am not dead!'

And all the crayons joined him inside the pencil case. One of them said:

- 'It's dark but it's comfortable'.

On the first day of school, the girl didn't want to open her pencil case because she thought her crayons would start to move again, and everyone would think she was crazy! But when she decided to open the pencil case, nothing happened.

The girl thought:

- 'Oh, it must have been a dream...' And she took out a crayon and started colouring.
